**Consultation: Draft LSB Strategic Plan 2015-18 and Business Plan 2015/16**

Dear Sirs,

Further to the above consultation paper, we are of the view:

- The detail is lost over 46 pages which is also repetitive. In the interest of transparency at all levels such a document should be short, sharp and to the point.
- As a result of the current de-regulation agenda we would have expected to see a clearly defined, with timescales, internal review programme at the LSB.
- As with the 2013/14 Strategic Plan, we would have expected to see a predicted three year budget reflecting anticipated costs savings at the LSB as a result of the current de-regulation agenda.

We would be grateful if you would acknowledge safe receipt of this letter.

Yours faithfully,

Lynn Plumbley  
Chief Executive
