

Summary of decision

The purpose of this summary sheet is to provide a high level and accessible summary of the LSB's decision. Readers are recommended to read the formal decision notice below for further detail. This summary is not and should not be taken as a formal part of the LSB's decision notice under the Legal Services Act 2007 ("the Act").

The LSB's decision is to grant in full the application from the Faculty Office to make changes to its regulatory arrangements by revoking and replacing its Notaries (Post-Admission) Rules 2009 with the new Notaries (Post-Admission Supervision and Training) Rules 2019. Broadly the new rules:

- standardise reporting required by the Faculty Office upon completion by a notary of practice under supervision
- create a register of notaries willing to act as supervisors
- allow for a period of supervision to be extended in certain circumstances
- provide for a period of supervision after an extended career break.

The LSB has concluded that the changes do not meet the refusal criteria in the Act. Consequently, the LSB considers that there is no reason to refuse this application.

Decision notice

The Faculty Office's application to make changes to its regulatory arrangements in order to replace its Notaries (Post-Admission) Rules 2009 with new Notaries (Post-Admission Supervision and Training) Rules 2019

- The Legal Services Board ("LSB") has granted an application from the Faculty Office on behalf of the Master of the Faculties ("the Master") for approval of changes to its regulatory arrangements in order to revoke and replace its Notaries (Post-Admission) Rules 2009 with the new Notaries (Post-Admission Supervision and Training) Rules 2019.
- 2. This decision notice sets out the decision taken, including a brief description of the changes.
- 3. The LSB is required by Part 3 of Schedule 4 to the Legal Services Act 2007 ("the Act") to review and grant or refuse applications by approved regulators to make alterations to their regulatory arrangements. The Master is an approved regulator and the Faculty Office is the regulatory arm to which the Master has delegated his regulatory functions. The notes at page 6 of this notice explain the statutory basis for the decision.
- 4. The chronology for the LSB's handling of this application is also set out at the end of this decision notice.

Background

- 5. Current Faculty Office rules require supervisors of newly admitted notaries to report to the Master at the end of the supervision period and to confirm whether in their opinion the notary should be permitted to practise without supervision.
- 6. The Faculty Office explained during the course of its application that the reports the Master receives from supervisors vary in length and content such that it can sometimes be unclear that there has been a consistent level of supervision. The proposed rules will introduce a standard form reporting regime intended to provide a greater degree of consistency in the information which is reported to the Master and how it is provided.
- 7. The proposed creation of a register of supervisors is intended to make it easier for newly admitted notaries to find supervisors and to allow the Faculty Office to better monitor those providing supervision.
- 8. Proposed changes to supervision periods are designed to ensure that all newly admitted and returning notaries receive adequate supervision in all circumstances. These changes are intended to safeguard consumers by making certain all notaries are competent to practise unsupervised before being allowed to do so.

Proposed Changes

- The relevant existing regulatory arrangements to be replaced are the Notaries (Post-Admission) Rules 2009 ("the existing rules"). It is proposed that they are replaced with the new Notaries (Post-Admission Supervision and Training) Rules 2019 ("the new rules").
- 10. The existing rules are largely retained within the new rules. However there are key changes to four areas within the new rules.

Register of Supervisors

- 11. New Rule 3 sets out that there will be a register of supervisors that will include all those notaries (or authorised persons) who are willing to act as supervisors as long as they meet the criteria for being supervisors.
- 12. The criteria for acting as a supervisor is not being amended by the proposed rule change save for the fact that new Rule 5 provides that supervisors of notaries undertaking conveyancing or probate work can now be any authorised persons with the requisite experience. The current rule limits such supervision to notaries, solicitors and licensed conveyancers.

Period of Supervision

- 13. New Rule 4 includes the option for the standard two year (three years for conveyancing or probate) period of supervision to be extended by the registrar on behalf of the Master where there is a:
 - a) change of supervisor
 - b) report submitted that suggests such extension is warranted
 - c) disciplinary finding
 - d) interruption in practise
 - e) recommendation by a supervisor.
- 14. New Rule 11 provides that in circumstances where a notary has ceased to practise for a period of five or more years they shall be required to complete a period of supervision specified by the Master.

Standard Form Reporting System

15. New Rule 7 introduces a new standard form reporting system. The exact form of the reports required can be found at Schedules 1 and 2 to the new rules annexed to this decision.

Guidance to Supervisors

16. New Rule 9 sets out that the Faculty Office will issue guidance relevant to the parts of a newly admitted notary's practise that require supervision. The Faculty Office has provided assurance during the course of its application that such guidance will not amount to the imposition of new rules. 17. There are also further minor changes to the rules which do not amount to changes in regulatory approach.

Key issues considered in the assessment of the application

- 18. The Faculty Office consulted on its proposals by providing a draft version of the proposed rules by email to all practising notaries for comment. It received broadly supportive responses from ten individual notaries and took those responses into account prior to submitting its application to the LSB.
- 19. The process followed by the Faculty Office was a limited consultative process. The Faculty Office did not highlight its proposed amendments to those it chose to consult. The consultation was not published and no opportunity was provided to anyone other than its regulated community to provide any comment.
- 20. During the course of its consideration of the application the LSB asked the Faculty Office about the impact of its new reporting requirements. The Faculty Office confirmed that it expected around 25-30 newly admitted notaries and supervisors to be affected each year.
- 21. The LSB has considered whether the limited consultation process undertaken, gives rise to refuse the application under the refusal criterion under paragraph 25(3)(f) of Schedule 4 to the Act. On balance, given that the changes proposed are not significant policy changes and build upon the existing set of rules, the LSB is satisfied that this refusal criterion is not met. In reaching this view the LSB has also had regard to the numbers of notaries and supervisors affected by the change. Nonetheless, in future the Faculty Office should ensure that all consultations are published on its website and that it appropriately highlights proposed changes within its consultations. Such publication will allow consultees (including those beyond its regulated community) to provide informed input to proposed alterations to the regulatory arrangements of the Faculty Office.
- 22. The LSB also asked the Faculty Office about the potential equality impact on notaries who have had a career break of five years or more, given the new requirement that they will be required to undertake a period of supervision to be determined by the Master. The Faculty Office confirmed that it does not consider the change will unduly impact upon equality or diversity. The Faculty Office expect that it will affect less than one notary each year. Further, the Master is able to set the level of supervision required which the Faculty Office consider will ensure the rule is proportionately applied to the circumstances of notaries returning to the profession. We expect the Faculty Office to monitor how this discretion is being applied and whether those being asked to undertake supervision following a career break are raising concerns about proportionality.
- 23. The initial application that the Faculty Office submitted was lacking significant information. When drafting future rule change applications the Faculty Office should refer to the LSB's Rules and Guidance for rule change applications¹. Ensuring that the

Decision

- 24. The LSB has considered the Faculty Office's application against the refusal criteria in paragraph 25(3) of Schedule 4 to the Act. It considers that there is no reason to refuse this application and accordingly, the application is granted.
- 25. **Annex A** to this decision notice contains the regulatory arrangements approved by the LSB.

Neil Buckley, Chief Executive

Acting under delegated authority granted by the Board of the Legal Services Board 11 April 2019

Notes:

- 1. The LSB is required by Part 3 of Schedule 4 to the Act to review and grant or refuse applications by approved regulators to make alterations to their regulatory arrangements.
- 2. Paragraph 25(3) of Schedule 4 to the Act explains that the LSB may refuse an application setting out a proposed change to the regulatory arrangements only if it is satisfied that
 - (a) granting the application would be prejudicial to the regulatory objectives
 - (b) granting the application would be contrary to any provision made by or by virtue of this Act or any other enactment or would result in any of the designation requirements ceasing to be satisfied in relation to the approved regulator
 - (c) granting the application would be contrary to the public interest
 - (d) the alteration would enable the approved regulator to authorise persons to carry on activities which are reserved legal activities in relation to which it is not a relevant approved regulator
 - (e) the alteration would enable the approved regulator to license persons under Part 5 [of the Act] to carry on activities which are reserved legal activities in relation to which it is not a licensing authority, or
 - (f) the alteration has been or is likely to be made otherwise than in accordance with the procedures (whether statutory or otherwise) which apply in relation to the making of the alteration.
- 3. The designation requirements referred to in paragraph 2(b) above are set out in paragraph 25(4) of Schedule 4 to the Act and are
 - (a) a requirement that the approved regulator has appropriate internal governance arrangements in place
 - (b) a requirement that the applicant is competent, and has sufficient resources to perform the role of approved regulator in relation to the reserved legal activities in respect of which it is designated, and
 - (c) the requirements set out in paragraphs 13(2)(c) to (e) of Schedule 4, namely that the regulatory arrangements are appropriate, comply with the requirements in respect of resolution of regulatory conflict (imposed by sections 52 and 54 of the Act) and comply with the requirements in relation to the handling of complaints (imposed by sections 112 and 145 of the Act).
- 4. In accordance with paragraphs 20(1) and 23(3) of Schedule 4 to the Act, the LSB has made rules² about the manner and form in which applications to alter regulatory arrangements must be made. Amongst other things, the rules highlight the applicant's obligations under section 28 of the Act to have regard to the Better Regulation Principles. They also require applicants to provide information about each proposed change and details of the consultation undertaken.
- 5. If the LSB is not satisfied that one or more of the criteria for refusal are met, then it must approve the application in whole, or the parts of it that can be approved.

 - (4) If for the purposes of rules 4(3)(a) and 4(3)(b) a supervised notary has more than one supervisor each of those supervisors shall carry out the full extent of supervision required by these rules save that an additional supervisor may restrict his/her supervision to supervising the conveyancing or probate practice of the supervised notary (or both) for which reason he/she has been appointed.
 - (5) A notary (or authorised person where paragraph (3) of this rule applies) acting as a supervisor shall be located within a reasonable distance from the office at which the supervised notary proposes to practise so as to enable the supervisor to visit that office from time to time as required by rule 6.
 - (6) A supervised notary shall, upon the death or retirement from practice of his/her supervisor, forthwith make arrangements for another notary qualified under rule 3 to supervise his/her practice for the remainder of the required period;

- (7) If, for any reason other than the death or retirement of the supervisor, either party wishes the appointment of a particular supervisor to be terminated before the expiry of the required period of supervised practice application shall be made for that purpose to the Registrar who may terminate the supervision upon such conditions as he shall think fit subject to any directions of the Master.

Extent of supervision

- 6. (1) The supervisor shall meet with the supervised notary on at least five occasions during the period of supervision as follows:
 - (a) First, at the office of the supervisor before any period of supervision commences and after completion of the Office Practice Course required by Rule 10.5 and schedule 5 of the Notaries (Qualification) Rules 2017;

- (7) If it appears to a supervised notary that papers relating to the business of a particular client cannot be shown to his/her supervisor without causing a breach of the duty of confidentiality owed to that client (whether on account of a relationship between the client and the supervisor, or because the supervisor is known to act for a person in competition with the client, or for any other reason), he/she shall inform the Registrar of that fact. The Registrar may nominate another notary (qualified to be a supervisor under rule 3 (but not subject to the same objections of confidentiality in respect of the client concerned) and the notary nominated shall, if willing to act, have the supervisor's rights and duties in relation to those papers.

(3) A record of any advice given by the supervisor under the provisions of rule 3(6) and rule 6 shall be retained by the supervisor for a period of not less than twelve years.

If for any reason the appointment of the supervisor ceases before the end of the period of supervision, the fee shall be apportioned pro rata or as the Master may direct.

Guidance and supervision

9. The Faculty Office shall from time to time issue guidance to supervisors upon aspects of a notary's practice which should form part of the supervision carried out pursuant to rule 6 and which shall include, but not be limited to, the following:

Continuing education and training

- 10. Every supervised notary shall during each year of his/her period of practice under supervision attend;
 - (1) a Continuing Education Course approved by the Master and which shall provide a minimum of 4 hours of tuition in each course, the content of such courses to be approved from time to time by the Master; and

(2) The Registrar shall only issue a practising certificate to such notary pursuant to rule 3 of the Notaries (Practising Certificate) Rules 2012 in accordance with the directions of the Master given under rule 11 (1).

Dispensations

12. The Master may upon such application made to him as he deems sufficient and for good cause dispense any notary from the requirement of supervision under these rules or permit such lesser supervision as he considers practicable in the circumstances of any particular case.

Revocation and Savings

- 13. (1) Subject to rule 13(2) the Notaries (Post Admission) Rules 2009 (as amended) (the "2009 Rules") are hereby revoked.
 - (2) Where a notary has commenced a period of practice under supervision prior to the coming into force of these rules the 2009 Rules shall continue to have effect in respect of that period of practice under supervision.
